NOTIFICATION.

The 11th May 1883.—Mr. W. G. Olpherts is appointed to be a Commissioner of the Municipality of Howrah.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 14th May 1883.—It is hereby notified for general information that, under the provisions of section II of Act VII (B.C.) of 1864, the Lieutenant-Governor intends to approve the undermentioned revised Rules (Section V of the Salt Manual) regarding the crediting of fines and disbursement of rewards:—

1. All fines and penalties levied by magisterial officers from offenders against the salt law and the rules published by the Government are to be credited under the head Law and Justice in accordance with the orders of the Government of India, Financial Department, No. 2189, dated 11th August 1879.

2. The Board attach great importance to the prompt payment of all rewards to informers and seizing officers in salt cases. Rewards should therefore be immediately paid from the treasury or sub-treasury, as the case may be, and debited to the Salt Department. The delay which must often occur in realizing the fines and penalties imposed, and before the sanction of the Board can be accorded under section 39 of Act VII (B.C.) of 1864 to the sale of confiscated salt, will thus be obviated.

3. When salt is confiscated, the police should be directed to take charge of the same until the expiration of three months from the date of the final order, when application should be made to the Board for sanction to the sale, and to the credit of the proceeds to the head "Law and Justice." Any small quantities, however, of confiscated salt, less than ten maunds in weight, should be sold at once, as it is liable to loss by wastage. As in the case of fines, the proceeds of such sales should be immediately credited to the head "Law and Justice."

4. Confiscated salt should not be sold for less than the duty; and if the place of sale is within rowannah limits, purchasers should be directed to apply to the Collector for the necessary protective documents in order to enable them to remove the salt if in excess of five seers. In the event of no offer being made sufficiently high to cover the Government duty, the salt, if not exceeding one maund, should be destroyed; if a larger quantity, the Board's orders should be applied for.

5. Except with the special sanction of the Board, the rewards adjudged in salt cases will not exceed the amount of fine imposed, *plus* the value of the salt confiscated in each case. This value will ordinarily be the price for which the confiscated salt is sold. Should the sale, however, be postponed (under rule 3 above), or the salt destroyed (under rule 4), the value will be estimated by the officer adjudging the reward at a price not exceeding the rate of Government duty.

6. Provided, however, that—

- (1) no larger amount than Rs. 100 may be disbursed in any one case before the expiration of the period of appeal, except with the special sanction of the Board; and
- (2) in cases in which the fine imposed is not realized, no larger amount than Rs. 100 may be disbursed on account of such fine without the special sanction of the Board.

7. Subject to the restrictions contained in the two preceding rules, Commissioners are authorized to sanction rewards up to the full amount of fine and the value of the salt confiscated in each case; and district officers are authorized to sanction rewards not exceeding Rs. 20 in each case. When a larger reward than Rs. 20 is deemed expedient, district officers should report the case for the orders of the Commissioner.

8. Magistrates trying cases of illegal manufacture, possession, or transport of salt, under sections 5 and 16 to 19 of Act VII (B.C.) of 1864, are authorized to grant rewards not exceeding the amount of the fine imposed, *plus* the estimated value of any seizure made and not exceeding Rs. 20 in any one case, to any person or persons who may have contributed to the conviction of the offender. The amount of such reward will not be disbursed from the fine when collected, or from the sale proceeds, but should be at once paid from the sudder or sub-divisional treasury, as the case may be, on an order signed by the Magistrate trying the case. The fine and sale proceeds, when realized (in whole or part), will be credited in the treasury in the usual manner. Magistrates granting rewards under this rule should be careful to see that the order for payment is made over in each case to the payee, with directions to present it for encashment at the treasury before he leaves the court.

9. The above rule applies only to the payment of rewards to private persons and to excise officers, and not to the payment of rewards to police officers. Rewards to police officers should be adjudged in the usual manner by the Collector, and should be disbursed to the District Superintendent of Police for distribution on monthly bills prepared by that officer, as is done in the case of payment of excise rewards. All police officers up to, and inclusive of, the grade of Inspectors may participate in the reward.

10. District officers should request all magisterial officers within their districts to send for their perusal all the papers of cases connected with offences against the salt laws *immediately* such cases are disposed of, together with any recommendations such officers may have to offer as to the payment of any special rewards which may appear to them to be deserved.

11. No time should be lost by the district officer in perusing the record and in passing such orders as the case may appear to require. Should he consider that the case deserves a reward which it is not within his competency to grant, an immediate reference should be made to the Commissioner for sanction.

12. District officers should show, in the appropriate columns of their half-yearly returns, the sums disbursed during the half-year as rewards, and the sums credited in the treasury on account of fines and forfeitures during the same period.

13. From the papers before them, and the information supplied by magisterial officers, Collectors are required to draw up and keep a register in the form given below. Immediately on receipt of the papers alluded to in rule 10, the first ten columns, or as many of them as possible, should be filled in, and it will be the duty of the district officer to see that no cause for any delay in the payment of rewards is allowed to exist:—

Register of Salt Prosecutions.

Serial number.	Number and date of case.	Section under which tried.	Date of Magistrate's order, and of final order, if appealed.	Quantity of salt confiscated.	Amount of fine imposed	Price realized by sale of salt.	Amount of fine realized.	Amount paid in rewards by the Magistrate's order.	Date of payment of reward in column 9.	Special or additional reward paid by Revenue officers.	Date of payment of reward in column 11.	REMARKS.

Exhibition of permanent Red Light.

THE Port Officer of Madras has given notice that, in order to facilitate anchorage at night, a *red* light is permanently exhibited from the yard-arm of the flagstaff in the port of Beypore, about eight miles to the southward of Calicut.

This light is visible between the bearings of S. by W. (through East) to N. W. $\frac{1}{4}$ W., and should be seen in clear weather from a distance of six miles.

Approaching Beypore by night a vessel should haul in between the bearings of E. by N. $\frac{1}{2}$ N. and N. E. by E., which will lead clear into an anchorage of from $4\frac{1}{2}$ to 6 fathoms.

The illuminating apparatus is a globular lantern.

RED SEA.

Shoal ground off Jebel Zukur.

INFORMATION has been received from the Agent of the Liverpool Salvage Association at Aden, communicated through the Political Resident, Aden, dated the 8th February 1883, of the existence of a sunken rock (near where the *Gulf of Finland* struck on the 18th October 1882) lying off Jebel Zukur island.

The rock, with a least depth of 15 feet over it, lies two cables E. N. E. from the East point of Jebel Zukur. It is outside the *Gulf of Finland's* present position, and does not appear on the Admiralty Chart of the Red Sea.

In calm, hazy weather the channel between Jebel Zukur and Abu Ail islands ought not to be used at night. In such weather the high land has a peculiarly distant appearance, and East point is so low, with white sand behind it, looking at night like water, that it is not seen from a vessel until she is on it, or at any rate too close to be safe. Great caution is therefore necessary when navigating in this vicinity.

NOTIFICATION.

The 23rd April 1883.—It is hereby notified, for the information of merchants and officers interested in the trade between False Point and other ports, that a telephone line has been laid and is in working order between False Point Light-house and Hookeytollah, the latter point being in telegraphic communication with Calcutta, and that a signaller has been appointed at the light-house to communicate with ships in the offing.

Ships can be signalled from the light-house, in ordinary weather, at a distance of five miles; in very clear weather, six miles; and in hazy weather, not more than three or four miles.

Owing to the sands lying off the Mahanuddy, ships cannot at any season approach False Point Light safely within four miles, or in the monsoon five miles.

The transmission of telephonic messages between False Point and Hookeytollah will be charged at the ordinary rate for inland telegraphic messages, besides Re. 1 for each message for the use of flags

NOTIFICATION.

The 14th May 1883.—It is hereby notified for general information that, under the provisions of section II of Act VII (B.C.) of 1864, the Lieutenant-Governor intends to approve the undermentioned revised Rules (Section V of the Salt Manual) regarding the crediting of fines and disbursement of rewards:—

1. All fines and penalties levied by magisterial officers from offenders against the salt law and the rules published by the Government are to be credited under the head Law and Justice in accordance with the orders of the Government of India, Financial Department, No. 2189, dated 11th August 1879.

2. The Board attach great importance to the prompt payment of all rewards to informers and seizing officers in salt cases. Rewards should therefore be immediately paid from the treasury or sub-treasury, as the case may be, and debited to the Salt Department. The delay which must often occur in realizing the fines and penalties imposed, and before the sanction of the Board can be accorded under section 39 of Act VII (B.C.) of 1864 to the sale of confiscated salt, will thus be obviated.

3. When salt is confiscated, the police should be directed to take charge of the same until the expiration of three months from the date of the final order, when application should be made to the Board for sanction to the sale, and to the credit of the proceeds to the head "Law and Justice." Any small quantities, however, of confiscated salt, less than ten maunds in weight, should be sold at once, as it is liable to loss by wastage. As in the case of fines, the proceeds of such sales should be immediately credited to the head "Law and Justice."

4. Confiscated salt should not be sold for less than the duty; and if the place of sale is within rowannah limits, purchasers should be directed to apply to the Collector for the necessary protective documents in order to enable them to remove the salt if in excess of five seers. In the event of no offer being made sufficiently high to cover the Government duty, the salt, if not exceeding one maund, should be destroyed; if a larger quantity, the Board's orders should be applied for.

5. Except with the special sanction of the Board, the rewards adjudged in salt cases will not exceed the amount of fine imposed, *plus* the value of the salt confiscated in each case. This value will ordinarily be the price for which the confiscated salt is sold. Should the sale, however, be postponed (under rule 3 above), or the salt destroyed (under rule 4), the value will be estimated by the officer adjudging the reward at a price not exceeding the rate of Government duty.

6. Provided, however, that—

- (1) no larger amount than Rs. 100 may be disbursed in any one case before the expiration of the period of appeal, except with the special sanction of the Board; and
- (2) in cases in which the fine imposed is not realized, no larger amount than Rs. 100 may be disbursed on account of such fine without the special sanction of the Board.

7. Subject to the restrictions contained in the two preceding rules, Commissioners are authorized to sanction rewards up to the full amount of fine and the value of the salt confiscated in each case; and district officers are authorized to sanction rewards not exceeding Rs. 20 in each case. When a larger reward than Rs. 20 is deemed expedient, district officers should report the case for the orders of the Commissioner.

8. Magistrates trying cases of illegal manufacture, possession, or transport of salt, under sections 5 and 16 to 19 of Act VII (B.C.) of 1864, are authorized to grant rewards not exceeding the amount of the fine imposed, *plus* the estimated value of any seizure made, and not exceeding Rs. 20 in any one case, to any person or persons who may have contributed to the conviction of the offender. The amount of such reward will not be disbursed from the fine when collected, or from the sale proceeds, but should be at once paid from the sudder or sub-divisional treasury, as the case may be, on an order signed by the Magistrate trying the case. The fine and sale proceeds, when realized (in whole or part), will be credited in the treasury in the usual manner. Magistrates granting rewards under this rule should be careful to see that the order for payment is made over in each case to the payee, with directions to present it for encashment at the treasury before he leaves the court.

9. The above rule applies only to the payment of rewards to private persons and to excise officers, and not to the payment of rewards to police officers. Rewards to police officers should be adjudged in the usual manner by the Collector, and should be disbursed to the District Superintendent of Police for distribution on monthly bills prepared by that officer, as is done in the case of payment of excise rewards. All police officers up to, and inclusive of, the grade of Inspectors may participate in the reward.

10. District officers should request all magisterial officers within their districts to send for their perusal all the papers of cases connected with offences against the salt laws *immediately* such cases are disposed of, together with any recommendations such officers may have to offer as to the payment of any special rewards which may appear to them to be deserved.

11. No time should be lost by the district officer in perusing the record and in passing such orders as the case may appear to require. Should he consider that the case deserves a reward which it is not within his competency to grant, an immediate reference should be made to the Commissioner for sanction.

12. District officers should show, in the appropriate columns of their half-yearly returns, the sums disbursed during the half-year as rewards, and the sums credited in the treasury on account of fines and forfeitures during the same period.

13. From the papers before them, and the information supplied by magisterial officers, Collectors are required to draw up and keep a register in the form given below. Immediately on receipt of the papers alluded to in rule 10, the first ten columns, or as many of them as possible, should be filled in, and it will be the duty of the district officer to see that no cause for any delay in the payment of rewards is allowed to exist:—

Register of Salt Prosecutions.

Serial number.	Number and date of case.	Section under which tried.	Date of Magistrate's order, and of final order, if appealed.	Quantity of salt confiscated.	Amount of fine imposed.	Price realized by sale of salt.	Amount of fine realized.	Amount paid in rewards by the Magistrate's order.	Date of payment of reward in column 9.	Special or additional reward paid by Revenue officers.	Date of payment of reward in column 11.	REMARKS.

Exhibition of permanent Red Light.

THE Port Officer of Madras has given notice that, in order to facilitate anchorage at night, a red light is permanently exhibited from the yard-arm of the flagstaff in the port of Beypore, about eight miles to the southward of Calicut.

This light is visible between the bearings of S. by W. (through East) to N. W. $\frac{1}{4}$ W., and should be seen in clear weather from a distance of six miles.

Approaching Beypore by night a vessel should haul in between the bearings of E. by N. $\frac{1}{2}$ N. and N. E. by E., which will lead clear into an anchorage of from $4\frac{1}{2}$ to 6 fathoms.

The illuminating apparatus is a globular lantern.

RED SEA.

Shoal ground off Jebel Zukur.

INFORMATION has been received from the Agent of the Liverpool Salvage Association at Aden, communicated through the Political Resident, Aden, dated the 8th February 1883, of the existence of a sunken rock (near where the *Gulf of Finland* struck on the 18th October 1882) lying off Jebel Zukur island.

The rock, with a least depth of 15 feet over it, lies two cables E. N. E. from the East point of Jebel Zukur. It is outside the *Gulf of Finland's* present position, and does not appear on the Admiralty Chart of the Red Sea.

In calm, hazy weather the channel between Jebel Zukur and Abu Ail islands ought not to be used at night. In such weather the high land has a peculiarly distant appearance, and East point is so low, with white sand behind it, looking at night like water, that it is not seen from a vessel until she is on it, or at any rate too close to be safe. Great caution is therefore necessary when navigating in this vicinity.

For regulating the conduct of business at meetings of the Commissioners.

1. An ordinary meeting of the Commissioners shall be held on the second Tuesday of every month.
2. All such meetings shall be convened by the Chairman or Vice-Chairman, by notice to be served on each Commissioner not later than three days preceding the date of the meeting.

3. In the event of the Chairman or Vice-Chairman determining to call an extraordinary general meeting, not less than one clear day's notice shall be given to the Commissioners of the day fixed for such extraordinary general meeting.

4. Every notice concerning a meeting shall be accompanied by a list signed by the Chairman or Vice-Chairman of the business to be brought forward at such meeting.

5. Any Commissioner wishing to bring forward any business shall give notice of such intention in writing to the Chairman a week before the meeting, when the Chairman or Vice-Chairman shall include such business in the list of the business to be laid before such meeting. But the Chairman may, in urgent cases, at his own discretion, accept a notice sent in any time before the issue of the notice of meeting.

6. No business shall be considered, or proposition received, at any meeting if it does not appear in the list of business.

7. At all ordinary general meetings the proceedings shall be commenced by the Chairman or Vice-Chairman reading the minutes of the last ordinary or extraordinary general meeting with the view to ascertain if the resolutions passed at such meeting have been faithfully and accurately recorded in the words used by the movers of such resolutions, or if amendments thereto shall have been passed, in the words used by the movers of such duly passed amendments.

8. In the event of any Commissioner being of opinion that any such resolution or amendment has not been accurately recorded, it shall be competent to such Commissioner to state his opinion to that effect, and thereupon the Chairman shall decide whether or not such resolution or amendment has been accurately recorded by reference to the original draft of such resolution or amendment, written and signed by the mover; and if he finds the minute to be inaccurate, he shall then and there make the necessary correction in the minute-book, provided that no discussion as to the propriety or otherwise of such resolution or amendment shall be allowed.

9. The order in which the several subjects shall be discussed at a meeting shall be determined by the order in which they are mentioned in the Chairman's list, provided that if two-thirds of the meeting consent to the alteration, the order in which any subject stands on the Chairman's list may be altered at the meeting.

10. On the Commissioners proceeding to the consideration of any subject, the Chairman or Vice-Chairman shall first read to the Commissioners the letters and papers connected with such subject, and thereupon any Commissioner may make a proposition regarding such subject, and address the meeting prior to the question being put to the vote by the President, provided that such Commissioner shall confine his remarks to the subject under consideration, and that after discussion, and before the original proposition or any amendments on it are put to the vote, the mover of the original proposition shall have the right of addressing the meeting by way of reply to any objections or amendments put forward against his proposition.

11. Every proposition made shall be written out by the proposer and signed by him.

12. Every proposition shall be seconded by one Commissioner, who shall also sign or initial the draft proposition written by the proposer.

13. The Commissioner who first addresses the meeting shall be entitled to be heard first; and should more than one Commissioner address the meeting, the right of precedence shall be determined by the President.

14. Any Commissioner shall be at liberty to call the attention of the President to a point of order, even when a Commissioner is addressing the meeting.

15. Any Commissioner may propose an amendment to a proposition to the effect that certain words in the proposition originally made be omitted therefrom, that certain words be substituted, or that certain words be added thereto, provided that such amendment be proposed when the subject is being discussed, and the original proposition is still before the meeting.

16. The President shall have the power of declaring the discussion on any question closed, and of putting the question to the vote, saving the privilege of the proposer to sum up in favour of the original proposition.

17. On the discussion being concluded, in the event of several amendments having been proposed, the President shall put the last amendment to the vote first. If negatived, he shall put the second amendment, and then the first. And if all the amendments are lost, the original proposition shall be put to the vote.

18. On a proposition being made and seconded, the President shall put the same to the vote subject to rule 10.

19. Votes shall be taken by show of hands.

20. All votes shall be put by the President, first in the affirmative and then in the negative form.

21. Any Commissioner may decline to vote on any subject without assigning his reason for abstaining from voting.

22. Any Commissioner may make a proposition that a subject under consideration be postponed, or that the consideration of it be adjourned either to a fixed date or *sine die*.

23. It shall be competent to any Commissioner to move a resolution to the effect that the subject under consideration be referred to a Committee, provided that such Commissioner shall also at the same time propose the names of the members of such Committee.

24. It shall be competent to the members of any such Committee appointed to vote at any general meeting on the subject reported on by such Committee.

25. Should any Commissioner object to any part of a report submitted by such Committee, such Commissioner shall be competent to make a proposition that the report be adopted, except with regard to the particular part objected to by him; or that such report be again referred to the Committee; or that the report be entirely set aside.

26. A subject once finally disposed of by a resolution duly passed at a meeting shall not be re-opened at any subsequent meeting, unless at least three-fourths of the Commissioners present at a meeting, of which due notice has been given, consent that such subject shall be re-opened and re-considered, provided that resolutions adjourning the consideration of a subject may be re-considered at any meeting after the usual notice.

27. The minutes of the proceedings of all meetings shall show the names of the President and of all members attending, the words of every proposition and every amendment; and in cases where votes are taken, the number of votes *pro* and *con*; and when a majority of the meeting considers it necessary, the names *pro* and *con*.

NOTIFICATION.

The 1st June 1883.—A notification, dated the 14th May 1883, having been published in the *Calcutta Gazette* of the 16th and 23rd idem, declaring the intention of the Lieutenant-Governor to approve the undermentioned revised rules (section V of the Salt Manual), and no objection having been raised to these rules, they are hereby approved and confirmed under the provisions of Act VII (B.C.) of 1864.

SECTION V.—*Rules regarding the crediting of fines and disbursement of rewards, Act VII (B.C.) of 1864.*

1. All fines and penalties levied by magisterial officers from offenders against the salt law and the rules published by the Government are to be credited under the head Law and Justice in accordance with the orders of the Government of India, Financial Department, No. 2139, dated the 11th August 1879.

2. The Board attach great importance to the prompt payment of all rewards to informers and seizing officers in salt cases. Rewards should, therefore, be immediately paid from the treasury or sub-treasury, as the case may be, and debited to the Salt Department. The delay which must often occur in realizing the fines and penalties imposed, and before the sanction of the Board can be accorded under section 39 of Act VII (B.C.) of 1864 to the sale of confiscated salt, will thus be obviated.

3. When salt is confiscated, the police should be directed to take charge of the same until the expiration of three months from the date of the final order, when application should be made to the Board for sanction to the sale, and to the credit of the proceeds to the head "Law and Justice." Any small quantities, however, of confiscated salt, less than ten maunds in weight, should be sold at once, as it is liable to loss by wastage. As in the case of fines, the proceeds of such sales should be immediately credited to the head "Law and Justice."

4. Confiscated salt should not be sold for less than the duty; and if the place of sale is within rowannah limits, purchasers should be directed to apply to the Collector for the necessary protective documents in order to enable them to remove the salt if in excess of five seers. In the event of no offer being made sufficiently high to cover the Government duty, the salt, if not exceeding one maund, should be destroyed; if a larger quantity, the Board's orders should be applied for.

5. Except with the special sanction of the Board, the rewards adjudged in salt cases will not exceed the amount of fine imposed, *plus* the value of the salt confiscated in each case. This value will ordinarily be the price for which the confiscated salt is sold. Should the sale, however, be postponed (under rule 3 above), or the salt destroyed (under rule 4), the value will be estimated by the officer adjudging the reward at a price not exceeding the rate of Government duty.

6. Provided, however, that—

- (1) no larger amount than Rs. 100 may be disbursed in any one case before the expiration of the period of appeal, except with the special sanction of the Board; and
- (2) in cases in which the fine imposed is not realized, no larger amount than Rs. 100 may be disbursed on account of such fine without the special sanction of the Board.

7. Subject to the restrictions contained in the two preceding rules, Commissioners are authorized to sanction rewards up to the full amount of fine and the value of the salt confiscated in each case; and district officers are authorized to sanction rewards not exceeding Rs. 20 in each case. When a larger reward than Rs. 20 is deemed expedient, district officers should report the case for the orders of the Commissioner.

8. Magistrates trying cases of illegal manufacture, possession, or transport of salt, under sections 5 and 16 to 19 of Act VII (B.C.) of 1864, are authorized to grant rewards not exceeding the amount of the fine imposed, *plus* the estimated value of any seizure made, and not exceeding Rs. 20 in any one case, to any person or persons who may have contributed to the conviction of the offender. The amount of such reward will not be disbursed from the fine when collected, or from the sale proceeds, but should be at once paid from the sudder or sub-divisional treasury, as the case may be, on an order signed by the Magistrate trying the case. The fine and sale proceeds, when realized (in whole or part), will be credited in the treasury in the usual manner. Magistrates granting rewards under this rule should be careful to see that the order for payment is made over in each case to the payee, with directions to present it for encashment at the treasury before he leaves the Court.

9. The above rule applies only to the payment of rewards to private persons and to excise officers, and not to the payment of rewards to police officers. Rewards to police officers should be adjudged in the usual manner by the Collector, and should be disbursed to the District Superintendent of Police for distribution on monthly bills prepared by that officer, as is done in the case of payment of excise rewards. All police officers up to, and inclusive of, the grade of Inspectors may participate in the reward.

10. District officers should request all magisterial officers within their districts to send for their perusal all the papers of cases connected with offences against the salt laws immediately such cases are disposed of, together with any recommendations such officers may have to offer as to the payment of any special rewards which may appear to them to be deserved.

11. No time should be lost by the district officer in perusing the record and in passing such orders as the case may appear to require. Should he consider that the case deserves a reward which it is not within his competency to grant, an immediate reference should be made to the Commissioner for sanction.

12. District officers should show, in the appropriate columns of their half-yearly returns, the sums disbursed during the half-year as rewards, and the sums credited in the treasury on account of fines and forfeitures during the same period.

13. From the papers before them, and the information supplied by magisterial officers, Collectors are required to draw up and keep a register in the form given below. Immediately on receipt of the papers alluded to in rule 10, the first ten columns, or as many of

them as possible, should be filled in, and it will be the duty of the district officer to see that no cause for any delay in the payment of rewards is allowed to exist:—
